

**Motherhood** is the sense of womanhood. It is the sense of a woman's life and the sense of a woman's mission in the world. The sense of a woman's life is the sense of a woman's mission in the world. The sense of a woman's mission in the world is the sense of a woman's life.

Every woman should be particularly careful of her health during the period of child-bearing. It is the most important time in a woman's life. The health of a woman during this period is the health of her child. The health of her child is the health of the nation.

## NOTES OF TRAVEL—MEXICO

CHANCES OF THE FUTURE.

Editor CHIEF—Have just returned from a two weeks visit to Mexico and Central America. This is a busy world and everlastingly busy engaged in looking after their own interests, that few seem to think of the interests of the world.

In traveling I met with a great many kinds of people and must confess that on the whole there is very little difference between the people of the mountain countries and those of the lowlands.

The mountain people are kind and hospitable and more cheerful and just as proud in their bearing as the people of the lowlands. They are not more than three miles from the border of the United States.

on earth. I saw her some three months before her death. How beautiful she looked, slowly passing up the mountain road, looking down at me as I rode by. She passed on the way to her death, that bright summer morning, with the voice of birds and the music of all created things, her spirit ascended to its native sky. I could not pass by the old graveyard of the old church without once visiting the grave of those old friends who have been there for so long. I saw her in the old churchyard, for in the old churchyard is the grave of the young lady who was a beautiful girl when I was a boy.

**ENGLAND "SHY" OF CAVALRY**  
HOLDERS.  
While England probably has the finest army of any nation, and is tolerably well equipped with guns of latest pattern and most of the material for war, she is woefully deficient in horseflesh for artillery and cavalry. Good horses for these purposes have become scarce every year. Twenty-five or thirty years ago England depended upon Australia for a reliable source of supply for her artillery and cavalry remounts, an exchange. A great draft was made upon the country, not only by Great Britain, but Russia and France sought that market for horses. In consequence there has been an increasing scarcity of animals of the right stamp. The production of war in Australia is far more profitable industry than raising horses, and breeders have turned their attention to sheep, which can be raised at much less expense.

Some time ago a British officer, Mr. J. H. Service, went to Australia with the object of ascertaining the resources of the Australian studs. He reported that the number of horses good enough for the army fell very far short of the number required. There was not enough to supply the army in India, much less all the other English dependents. It is to be seen that England, army officers, have been forced to turn their eyes to the class of horses required for cavalry and artillery. Outside of Australia and India there is no place for England to look to for horses. The Persian gulf sources of supply have been absorbed by Russia, and horse-breeding in tropical countries has been a success. The union of Europe and the United States for military service, having immediate use for all they can raise.

Years ago Australian horse breeders learned that if their horses were good enough for army purposes in England they were equally desirable as "finest" horses to the London and other companies, and, with other countries, practically closed for horses of useful quality, the demand on Australia more than kept pace with the supply. When it became apparent to the Australian farmer that the rearing of sheep paid better than horse breeding, he disposed of the best mares for working, instead of keeping them in the stud, and this is the one great reason why the quality of every class horse has become scarce in Australia. The fully of horse owners in being so completely tempted to part with their best mares has worked most disastrously in England and her dependent provinces.

India does not, nor can it, produce a horse suitable for cavalry. What is wanted is a stout animal, with as much breeding as possible, vigorous as an active medium-sized horse to a useful stock horse; and as the British soldier and his mountments weigh from 200 to 250 pounds, it is useless to provide him with a weak and weedy animal. For this description of horse the English Government is prepared to pay a good price. The War Department of the United States has not been so successful in the last few years. The horse of the English Government has not been so successful in the last few years. The horse of the English Government has not been so successful in the last few years.

"Yes," she said, encouragingly.

NATIONAL DEMOCRATIC CONVENTION, JULY 7TH, CHICAGO.

On Thursday, the National Democratic Convention, in session in Washington City, decided to hold the national convention July 7th in Chicago. The next President of the United States will be named in the "White City" on that date or thereabouts. It will be a sound move now in favor of retiring the greenbacks, until Congress shall in the meantime reach a satisfactory solution of the problem.

WHERE ARE THE PROHIBITIONISTS?

A little strange, isn't it, that no howls are heard over the proposed prohibition of the battle-ship "Kentucky"? The usual way is to make a bottle of champagne on the bow of the boat, which is held and held enough but now it is proposed to substitute a bottle of Kentucky whisky made up of contributions from Kentucky distillers. Besides the stupor-inducement of the proceeding we are constrained to think it a rank waste of the material. Miss Harriet Richardson, of Lexington is expected to perform the baptism.

CAMPUS CALLED DOWNS.

Campus Insurgents made it so hot for Spain that General Campos offered his resignation, which was promptly accepted. Whether the old warrior resigned of his own accord or whether his resignation was suggested by his Government is not known. It is that as may be, one venture is entirely clear, and that is that Campos utterly failed to suppress the rebellion. December and January were the best months of the year for the Spanish soldiers, being the only period that afforded immunity from yellow fever.

Campuses, last summer, promised to conquer the rebels just as soon as the weather should improve the fever, but instead it looks as if the rebels were about to suppress the Spaniards. Congress should recognize the Cubans as belligerents and thus aid the struggling islanders. The Senate Committee on Foreign Affairs will report in favor of sustaining the Monroe Doctrine and the same will doubtless be endorsed by both the Senate and the House. Now as it seems well to prohibit a foreign power from forcibly acquiring territory on this continent, wouldn't it not be well to dispose of some foreign holdings already existing—for instance, Spanish occupation of Cuba?

On Saturday morning a sensation was created by a report that R. C. Adams the vocal music teacher, had eloped with Miss Deborah Thomas. On Tuesday Mr. Adams left home "homebound" with his sister for his father's near Waco Friday, his father said R. C. left his home Tuesday evening to return home.

An inquirer was then sent to Wieman town, where Miss Thomas had been teaching. Mr. T. Nolan, with whom Miss Thomas boarded, stated that on Tuesday night Mr. Adams called for Miss Thomas, saying her sister at home was sick, and he had come for her. Nothing has since been heard of them.

Adams is a son of Wm. Adams in the Waco neighborhood. About three years ago he came to Little Rock, near here, and got up singing clubs. He married Mrs. Craig, a widow, about thirty years old, and daughter of Albern Thomas, town, where Miss Thomas had been teaching. Mr. T. Nolan, with whom Miss Thomas boarded, stated that on Tuesday night Mr. Adams called for Miss Thomas, saying her sister at home was sick, and he had come for her. Nothing has since been heard of them.

six or seven years older. They had lived together about three years and have a sweet little girl, about ten months old. Miss Thomas is about 25, and was of Mr. Adams' best singers, going with him to many places to lead. She is a daughter of Mr. Cain Thomas, brother of Adams' wife's father. This is a surprise to many, but others had noticed too great an intimacy between Adams and Miss Thomas. It is said that Adams and his wife had come near separating on this account, a time or two. Again it is said that Miss Thomas and Adams were engaged to be married, when he married Mrs. Craig. If he married Mrs. Craig to get her property he did not succeed well for it is not thought that he secured much except the two horses they rode away. Mr. Adams was making himself useful and was much encouraged wherever he taught.

## "NIGGER DOMINATION."

All the patients and attendants at the Western Lunatic Asylum are whites, but Dr. Bradley has made a negro school-keeper Steward at that institution, a position that involves the expenditure of from \$5,000 to \$8,000 per month for supplies and entitles the holder to office, eat and sleep upon a civic social equality with the white official. A negro doctor of this city is also an applicant for the appointment as Third Assistant Physician at the Central Lunatic Asylum, and the prospect is that he will get the place.

In his Auditorium speech, opening the campaign of last year, Col. Bradley said: "I want to say in advance that I deplore the spirit that prevails of undertaking to arouse animosities between the races in the State of Kentucky, and suggesting to the colored people things which they don't want and things which they don't demand. There are prejudices in Kentucky, that we all understand, and to-day a law were passed in Kentucky, undertaking to put the colored people into the hotels and into the churches and into the theaters, it would simply cause a race war in the State of Kentucky that would result in the destruction of the colored man. And the colored man doesn't want it and I don't want it, and I am opposed to it."

The Governor has within two months of his induction into office put one negro into an official position of authority over five or six hundred unfortunate whites, and taken under consideration the appointment of another negro to a similar position. How long he will keep his pledge to uphold the color line at hotels, churches and theaters remains to be seen. A bill abolishing the blue has been drawn for submission to the Legislature, and if the Governor doesn't already know it, he can easily learn its passage is not one of those "things which the colored people don't ask" or of "those things which they don't demand."

IN THE SAME HOUSE BUT THREE COUNTRIES.

A Jackson special says: Uncle Jimmy Brandenburg, as he is usually called living at the mouth of Sturgeon Creek, in Lee county, who is now in his eighty-eighth year, enjoys the unique distinction of having lived in the same house in three different counties, first in Eadell county, where he had to travel a distance of twenty-one miles to vote, and elections were held three days. Next he lived in Owsley county which was composed of Clay and Breathitt counties. Lee county where he yet lives was composed of parts of Breathitt, Owsley, and Bell. He has been a voter nearly sixty-seven years, and voted for General Jackson, the twelfth President of the United States.

HEAVY HOGS.

I saw a valuable object lesson on the profits of raising good stock. The lesson consisted of twenty-three head of hogs that John Woelpert had bought of J. M. Jenkins, of Glendale. They weighed 9,300, making average of a little over 400 pounds each. These hogs were of the Duroc-Jersey breed. Mr. Jenkins having the only stock of that kind in the county. Of course, these weights are heavy even for aged hogs, but they, remarkable to say, with the exception of four, were all under a year old.—Elizabethtown News.

WANTS \$30,000.

Jennie Shumaker, widow and administratrix of John Shumaker, has brought suit against the Louisville & Nashville railroad for causing the death of her husband, and claims damages in the sum of \$30,000. The suit was filed in the Boyle County Circuit Court by Sylvester Russell, of Lebanon, and Messrs. Harding and Rawlins of Danville are lawyers for the widow. Messrs. Jacobs & McDowell will represent the railroad. Shumaker was a freight brakeman at the time of his death and was accidentally killed near Parkville, in this county, last fall.—Danville Advocate.

BUILDING UP OF THE U. S. NAVY.

The subject of the navy was published in these columns at the time of the decision, but has probably been forgotten by most readers of the CLIMAX.

It may not be generally known, but it is a fact that the growth of our present navy is largely due to Representative McCreary. In the Fifth Congress Mr. McCreary was chairman of the Committee of the Whole when the naval appropriation was under consideration. Secretary Herbert was at that time chairman of the Naval Affairs Committee and had charge of the bill. Among the amendments offered was one authorizing the construction of several warships. Holman made the point of order that the amendment was new legislation. Mr. McCreary overruled the point of order on the ground that the work of building a navy had already been commenced, and that the amendment only proposed to continue that work.

This decision has been attacked ever since, but has never been reversed, and in the last two Congresses, when amendments were offered increasing the naval appropriation bill, Mr. McCreary's decision was referred to. Secretary Herbert never forgot it, and it is this fact that had much influence in the naming of a battleship for Kentucky.

A new statue of Gen. Grant is to be erected in front of the Union League Club, of Brooklyn, and will be unveiled April 27, 1896.

Lord Rosbery is following Disraeli's example in putting his political experience in the form of a novel, which he is now writing.

The wife of the Italian Prime Minister, Crispi, is an ardent lover of cigarettes, and is said to enjoy putting a cloud whenever she is engaged.

The steamer Congo was sunk at Caruthersville, Missouri, Tuesday.

The method of farming here differ greatly from those practiced in that part of the Blue Grass where your paper circulates. The ground is sandy, not cutting sand up as is seen in Kentucky, but a fine, easily dried, yielding principle which is everywhere. This makes it necessary to plow shallow and for this purpose a broad plow is used. Much of the fertilizing is necessary only to secure moisture. It is the lack of moisture that prevents Florida having the richest soil in the south.

It seems that the South is destined to outstrip the North and West in point of wealth in a few years. A steady tide of immigration is flowing this way, bringing people of energy and character.

The Southern States Magazine, of Baltimore recently published the following other valuable points:

VALUE OF FARM PRODUCTS IN 1890, PER ACRE.

United States.....	\$ 6.87
North Atlantic division.....	9.88
North Central division.....	6.93
Western division.....	6.76
Georgia.....	8.59
Alabama.....	10.54
Mississippi.....	8.60
Louisiana.....	10.70
Average for these five States.....	10.95
In 1880 the value of farm products in the South was \$666,000,000; remainder of the country, \$1,550,000,000. In 1890 the South produced \$773,000,000, an increase of 16 per cent, while rest of the country increased only nine per cent.	

The average value of the five Western States of Nebraska, South Dakota, Minnesota, Illinois and Indiana at the same time was \$5.48 per acre. They say figures won't lie.

We predict a bright future for the "Sunny South."

A. CHACKER.

LOOKOUT FOR THIS FELLOW.

One of our Western Kentucky exchanges sends the following note of warning.

We advise farmers' wives to be on the lookout for swindlers who come around to repair sewing machines. He begins work and when you don't notice him he will take a piece out of your machine and substitute a broken one. Then he will call your attention to the broken part and get your permission to repair it. He then takes the piece he took out of your machine and polishes it and puts it back, and you pay him \$1 upward for the deception he has practiced upon you. Keep a short gun and a bulldog handy for such fellows.

If you are in need of water, call next door.  
—Was in Town Again.  
Elijah Broadus, who lives at Baldwin, not far from Valley View, this county, was in Richmond one day last week, for the first time in three years. He is a prosperous farmer, in good health, takes the CLIMAX and is paid a year in advance. Usually the sheriff sends a deputy around, and Mr. Broadus pays his taxes, and the deputy did not call on him, therefore he had to come to see the sheriff. Mr. Broadus has a large number of inhabitants who are rarely seen in Richmond. They depend almost exclusively on their neighborhood stores for trade, attend their local churches, keep off the juries and don't go far to hear political speeches.

## The Harvards.

This quartette at court house, Monday night, was remarkably fine. Vocal music almost exclusively. For harmony they have no superiors. Lady reception was excellent.  
—Bradley Will Get Him.  
The wild-eyed correspondent for the Courier-Journal estimates the loss on Banker Chisholm's residence, burned Monday night at \$15,000. A conservative estimate would make it near three thousand. This is the kind of reporter that Gov. Bradley is after in his message.  
—The Best.  
Wm. Arnold sold to Bales 78 cattle that averaged 1625 pounds with ribs over. Price \$4.25 and a premium. Of the lot, 70 were of his own raising from soundings, on corn he raised. Went to Baltimore for sale. Mr. Arnold says "no better fatted cattle ever left the county."  
—Rain Coming.  
George W. Bain, the famous lecturer, will be here Saturday night, Feb. 1st, subject, "Days and nights, Fives and Naughts, or the Problem of Life." Mr. Bain's last two years' filled more engagements than any other man on the American platform. The longest halls in the world have been filled by him. He is a former Richmond man, a fine orator, and should have a good house.  
—Elder.  
The swift, up-to-date, low-rate dry goods man, who has just opened the city, calls to-day through a half column ad in to-day's CLIMAX. Listen to the mocking bird if you wish to live long and prosper. He quotes you submarine rates.  
—New York in Richmond.  
Why go to New York to buy dry goods, shoes and the like when you have the New York Store right here in Richmond? Consult Mr. Woolsten's extensive ad. in today's CLIMAX. Ex-Postmaster Taylor is chief salesman and will be glad to see you.  
—Bad Man Discovered.  
The close-knit Richmond man who presented his little daughter with the whole sum of a dime with which to buy Christmas trinkets, but stole it from her while she was tucked away in bed asleep, was discovered by his mother, who turned over to a nurse to see if she could be found in a guano-eater, and the guilt wouldn't wink.—Jackson Hustler.  
—Wedded Wednesday.  
Miss Lila Arnold, this place, and Mr. J. S. Johnson, of Garrard county, were married at the home of the bride's mother, Mrs. John Arnold, on High Street Wednesday night at 11 o'clock. Rev. W. F. Smith, of the Christian church, was the minister. The couple took the midnight train South. The bride is a well known teacher of the public schools and sister of Arnold Brothers of this place. The groom is a well-to-do farmer of the Camp Hill Robinson vicinity.  
—Making Democratic Voters.  
The Louisville-based Republicans will endeavor to secure the adoption of a bill, by legislation, which will grant them all the privileges now enjoyed by the white people. This bill, which is similar to a New York law, admits the negro to the theaters and hotels upon an equality with the whites, making no distinction, whatever, between the races in any class of public entertainment and giving them on an account of the expense.—Times.  
—Married Yesterday Morning.  
Mr. Bland Ballard and Miss Annie Traynor were married Tuesday morning and left at once for Cincinnati. Rev. Dr. McCown, of the Baptist church, officiated. Only the family present. The groom is capable revenue officer of Collector Roles' office, and the bride the handsome daughter of Mr. and Mrs. S. C. Traynor.  
—A Fool and His Gun.  
There is a law against pointing a gun or a pistol at a person even when you "didn't know it was loaded." Here is a case from the Standard Journal:  
Charles Lee Woods, a 19-year old negro boy, found an old gun belonging to George Craig and thought he would have fun firing the children. He didn't know it was loaded, he testified, but when he aimed a cap and pointed it at Samantha, the five-year old daughter of Taylor Lackey, it went off and buried his head in the child's eye and possibly went to the brain. The sight is instructive and Dr. Bailey can not tell yet whether it will die or not. The boy was arrested for malicious shooting and tried before Judge Carson, who dismissed that charge and held him under the law prohibiting the pointing of a weapon at a person. He cried bitterly at the examination and protested that he did not intend to hurt the girl.  
—The "New Woman" Not New.  
According to "Tattler" in Louisville Times, the so-called new woman is in fact so old that she is prehistoric. Tattler says:  
Since Col. Bennett H. Young has become a benighted once more, he has neglected watering his mount-hill barns, and some of his rivals are raising fresh green crops of these century plants. It will be remembered with awe that some time since Col. Young and a party of scientists went into the State for the purpose of launching several theories. The results, in most cases, were satisfactory, but especially in one case, where they unearthed a mound-buller bicycle girl, dressed in bloomers and named Daisy, and a music-box, which played the "Two Little Girls in Blue." This remarkable find was very modern. —Hammered a Cartridge.  
Vedat Cobb, a small colored boy, known also as Duck Cobb, came into possession of a 44 rifle cartridge of considerable length, and, Friday, tried a hammer on it, down in "Powell's Valley," this place. The cartridge exploded, lacerating the thumb and first two fingers of the right hand so badly that Drs. Poyntz & Bales had to amputate them. But Duck is not the only one to fool with a cartridge. The Standard Journal says:  
Sisde, the 10-year-old daughter of Huch Bailey, colored found a dynamite cartridge under the house Tuesday and not knowing what it was proceeded to investigate it with a rock. The explosion that followed blew off three fingers and gave her a severe shock besides 72 lines says that Jim Coffey, a notorious chicken thief who left here between two o'clock, the cartridge having several years ago, he and Coffey having used a number for blowing up rail and this one was left over.  
—Public Sale.  
Capt. Tom Perrell reports John Hiele's sale yesterday:  
Fifty one cattle, feeders, \$3,873 weight 1100y carlings 55, 700 lbs. \$28. yoke oxen \$70. Ten 4th shoots \$15. Hired stacks of hay \$12 3/4 a quire. Good round good dinner and good sale. Amount of sale \$3100.  
—Teachers in the Soup.  
A letter from the Sup't. of Public Instruction, W. J. Davidson, states that the teachers in the public schools will receive one half of the last installment due them March 1st and the remainder not before July. This money was due January 11th, but cannot be paid on account of the shortage of funds in the treasury.  
—Died in Fayette County.  
Mrs. Catherine Fox, aged 79 years, died at the home of Josiah Phelps near Clays Ferry, on Sunday. Buried in a Richmond cemetery. She was the widow of Sam Fox, Sr., who lived three miles out on the Lexington pike. C. T. and L. A. Fox are among her sons.  
—C. D. Chisholm's Residence Burned.  
At 10 o'clock, Monday night, the handsome residence of C. D. Chisholm on Main street, formerly the Lyman place, was found to be on fire. The Fire Department responded promptly and subdued the flames before much of the main building was burned. The fire included the kitchen where the fire originated. The loss, \$25,000 to \$30,000, fully insured with Fowell & Turley. Repairs will begin at once.  
—Warehouse Demolished.  
Mr. Garrett Watts and his brother, of Pine Grove, were in the city Friday viewing the wreck of the former warehouse on West High street straightening out matters. Mr. Watts says his loss will not be less than \$10,000, as there was in the house between seven thousand bushels of wheat, of which he owned eleven thousand bushels, the balance belonging to others. The great pile of damaged wheat will be sold for hog feed and will bring probably twenty-five cents a bushel.—Lexington Argonaut.  
—Five and Cost.  
A half dozen college boys, who were more demonstrative on the street, Monday night of last week, as the "Hill" girls passed than was proper, were before Judge Lyle, Friday, and got \$5 and costs (freed on the inside of their pockets).  
—Made a speech in the case. City Attorney Sullivan smiled grimly and Shackelford and Hogg for the defense left the matter in the hands of the court. The trial took place in the handsome Circuit Court room, and the girls were present. It was a tony proceeding. The boys next time will give their college yell out in the Billington Addition, and sing their songs in silence where else.  
—Dr. Harbour Dead.  
Dr. John Ford Harbour, a well-known physician of this city, died yesterday afternoon at 2 o'clock of pneumonia. The funeral will be from the chapel of the Second Presbyterian church this afternoon at 2 o'clock. The remains will be interred in Danville.  
Several weeks ago Dr. Harbour contracted a severe cold which culminated in pneumonia last Wednesday. He was thirty-four years of age, and was the son of Dr. Louis G. Harbour, who is professor of mathematics at Central University at Richmond, Ky. He was a graduate of Central University and afterwards studied medicine in this city. From Louisville he went to New York, where he was graduated with honors from the medical department of the University of New York. About eleven years ago he began the practice of his profession in this city, and from a struggling young physician soon acquired a large practice, being especially successful in the treatment of nervous diseases and diseases of the stomach. He was never married, but lived alone on Chestnut street, near Second. Several days ago when his disease took a more serious turn, he feared for the worst, and his parents were summoned from Richmond. His family were about him when he died.  
Dr. Harbour was a brother of Dr. Phil Harbour, also of this city, and a cousin of Dr. P. C. S. Harbour, of the City Hospital, and was a member of the staff of that institution. He was also a valued member of the Blue Stocking Club and a frequent contributor to Puck and other Eastern publications. In last week's Puck he had an article signed "John Ford," entitled "Applied Mythology." He was also a member of the Medical-Chemical Society of this city, and at the meeting two weeks ago read a paper on "Nervousness," which attracted universal attention. He was also an amateur musician of unusual ability.—Courier-Journal 17th.  
—Barnwood Will Do Brilliant Tonight.  
Miss Mary Campbell Barnum and Mr. Walter Bennett will be married at 7 o'clock, this evening, at "Barnwood," the palatial home of the bride's parents, Hon. E. and Mrs. Curtis F. Barnum, in the West End. Rev. Edmund H. Barnum, of the Presbyterian Baptist church, uncle of the bride, will pronounce the ceremony in his peculiarly exquisite way. Miss Mary Bennett, daughter of Mr. James Bennett, and niece of the groom, is Maid of Honor, and Miss Sarah and Miss Barnum, daughters of Hon. A. R. Barnum, ribbon girls, and Miss Marian Barnum, daughter of Mr. Thompson S. Barnum, the three nieces of the bride, flower girls.  
The house will be decorated with flowers, plants and shrubs.  
The presents are unusually handsome, consisting of expensive glass, solid silverware, Dresden, bronzes, paintings, elegant watch, elaborate clock and many other articles of value.  
About sixty persons only will be present, and a supper will follow the ceremony.  
The couple will leave to-morrow morning for New York from which city they propose sailing the 28th on the steamer Bismarck. Their itinerary calls for Gibraltar, the Mediterranean cities, Egypt, Palestine, parts of Turkey, and the principal cities of Europe.  
The bride is the youngest daughter of Major Barnum, widely known as a lawyer, legislator and financier. The groom is of the extensive and well-known Bennett family, and is a member of the firm of Barnum, Bennett & Co., of whom the bride's brother is a member. Each of the couple has all the advantages of education, popularity, family influence, wealth, and personal attractions, and we never knew a couple to be so well matched.  
Senator John Bennett and Representative E. T. Barnum, brothers respectively of the groom and bride, will arrive from the capital to-night.  
Ambassador Rust is one of the latest men in Paris to learn bicycling.

## Painfully Hurt.

Miss Sallie Miller, visiting her sister, Mrs. S. B. Hume, at Silver Creek, was thrown from a buggy Monday, and painfully hurt, receiving a cut above one eye and a contusion on the left side. The horse ran away and the buggy struck a tree.  
—Boring & Harrison vs. White.  
The celebrated case of Boring and Harrison vs. John D. White which has been pending in Circuit Court here for several years has been decided in favor of the former. This was the most hotly contested suit ever tried in Lee county and has attracted widespread attention. The suit grew out of a quarrel over the ownership of certain property bought by the parties of John G. Mixville during the boom. By the terms of the contract White assumed to pay a note to John G. Mixville for \$4,333 on which they were jointly liable. White pleaded that the contract was procured by fraud on the part of Harrison and this plea was rejected by the court. Judge Redwine delivered an opinion Wednesday in which he sustained the contract and vindicated Harrison against the charge of fraud. It was remembered that the jury that tried the case out of the county in this case last spring also decided that there was no fraud on Harrison's part. The record in this case comprises several thousand pages of depositions. The cross plaintiffs Harrison and Boring were represented by Judge H. C. Lilly, of Irvine, and O. H. Pollard of the local bar. The defendant White was represented by Judge Robt. Riddle, of Irvine, and C. T. and L. A. Chisholm, of Richmond. The case will go to the Court of Appeals.—Beattyville Enterprise.

AN INCREASED AMOUNT.  
In January 1891, John W. Previtte one of the most influential men in the county attended the opening sale of the Union Tobacco Warehouse Company, of Louisville. A large crowd was in attendance, and a speech from Gen. John S. Williams was a feature of the occasion. Mr. Previtte was leaning against a temporary railing erected in front of the elevator shaft. The crowd pressing upon the railing caused it to give way and Mr. Previtte was precipitated to the floor below, sustaining injuries which caused his death in a short time.  
Mrs. Previtte brought suit for \$25,000 damages. When it came to trial the jury awarded her \$3,312.50. The Warehouse Company secured a new trial and this time Mrs. Previtte received a verdict for \$4,500. An error in the instructions led Judge Field to grant a new trial. Mrs. Previtte's lawyer had asserted that each trial enabled them to present a stronger case and it seems they were right, for Tuesday the jury brought in a verdict of \$12,000. When the suit was first brought the Kentucky Tobacco Growers Association was made a party to the suit but the Association was afterward dismissed.—Winchester Democrat.

—How The Editor Gets Left.  
A child is born, the doctor gets \$10, the editor gets \$10 and marries and the minister gets \$10. The editor gets a piece of cake or 50 in money of time in the doctor's office, or \$5 to \$10 and perhaps the minister gets another \$5, the undertaker \$25 to \$50, the editor prints a notice of her death, an editorial column long and a set of resolutions of some organization to which the deceased belonged, and he receives \$100.—Ex.

Judge J. S. Phelps, member of the Legislature from Fayette county, comes to Lexington every night to find good food and board, being accommodated now to his mind then in Frankfort. The railroad fare both ways, and board here does not cost him any more than his Frankfort tavern bill, besides the quiet and comfort he gets.—Lexington Gazette.  
—What They Want.  
Many people have not learned that the Water & Light office has removed and the building now occupied by the CLIMAX. We therefore have calls for piping valves, rubber hose and other plumbing supplies. They want to pay gas and water bills, have leaks stopped and all sorts of odds and ends. We can supply the gas, our peculiar manufacture, at \$1 per year. If you are in need of water, call next door.  
—Was in Town Again.  
Elijah Broadus, who lives at Baldwin, not far from Valley View, this county, was in Richmond one day last week, for the first time in three years. He is a prosperous farmer, in good health, takes the CLIMAX and is paid a year in advance. Usually the sheriff sends a deputy around, and Mr. Broadus pays his taxes, and the deputy did not call on him, therefore he had to come to see the sheriff. Mr. Broadus has a large number of inhabitants who are rarely seen in Richmond. They depend almost exclusively on their neighborhood stores for trade, attend their local churches, keep off the juries and don't go far to hear political speeches.

## The Harvards.

This quartette at court house, Monday night, was remarkably fine. Vocal music almost exclusively. For harmony they have no superiors. Lady reception was excellent.  
—Bradley Will Get Him.  
The wild-eyed correspondent for the Courier-Journal estimates the loss on Banker Chisholm's residence, burned Monday night at \$15,000. A conservative estimate would make it near three thousand. This is the kind of reporter that Gov. Bradley is after in his message.  
—The Best.  
Wm. Arnold sold to Bales 78 cattle that averaged 1625 pounds with ribs over. Price \$4.25 and a premium. Of the lot, 70 were of his own raising from soundings, on corn he raised. Went to Baltimore for sale. Mr. Arnold says "no better fatted cattle ever left the county."  
—Rain Coming.  
George W. Bain, the famous lecturer, will be here Saturday night, Feb. 1st, subject, "Days and nights, Fives and Naughts, or the Problem of Life." Mr. Bain's last two years' filled more engagements than any other man on the American platform. The longest halls in the world have been filled by him. He is a former Richmond man, a fine orator, and should have a good house.  
—Elder.  
The swift, up-to-date, low-rate dry goods man, who has just opened the city, calls to-day through a half column ad in to-day's CLIMAX. Listen to the mocking bird if you wish to live long and prosper. He quotes you submarine rates.  
—New York in Richmond.

—Bad Man Discovered.  
The close-knit Richmond man who presented his little daughter with the whole sum of a dime with which to buy Christmas trinkets, but stole it from her while she was tucked away in bed asleep, was discovered by his mother, who turned over to a nurse to see if she could be found in a guano-eater, and the guilt wouldn't wink.—Jackson Hustler.  
—Wedded Wednesday.  
Miss Lila Arnold, this place, and Mr. J. S. Johnson, of Garrard county, were married at the home of the bride's mother, Mrs. John Arnold, on High Street Wednesday night at 11 o'clock. Rev. W. F. Smith, of the Christian church, was the minister. The couple took the midnight train South. The bride is a well known teacher of the public schools and sister of Arnold Brothers of this place. The groom is a well-to-do farmer of the Camp Hill Robinson vicinity.  
—Making Democratic Voters.  
The Louisville-based Republicans will endeavor to secure the adoption of a bill, by legislation, which will grant them all the privileges now enjoyed by the white people. This bill, which is similar to a New York law, admits the negro to the theaters and hotels upon an equality with the whites, making no distinction, whatever, between the races in any class of public entertainment and giving them on an account of the expense.—Times.  
—Married Yesterday Morning.  
Mr. Bland Ballard and Miss Annie Traynor were married Tuesday morning and left at once for Cincinnati. Rev. Dr. McCown, of the Baptist church, officiated. Only the family present. The groom is capable revenue officer of Collector Roles' office, and the bride the handsome daughter of Mr. and Mrs. S. C. Traynor.  
—A Fool and His Gun.  
There is a law against pointing a gun or a pistol at a person even when you "didn't know it was loaded." Here is a case from the Standard Journal:  
Charles Lee Woods, a 19-year old negro boy, found an old gun belonging to George Craig and thought he would have fun firing the children. He didn't know it was loaded, he testified, but when he aimed a cap and pointed it at Samantha, the five-year old daughter of Taylor Lackey, it went off and buried his head in the child's eye and possibly went to the brain. The sight is instructive and Dr. Bailey can not tell yet whether it will die or not. The boy was arrested for malicious shooting and tried before Judge Carson, who dismissed that charge and held him under the law prohibiting the pointing of a weapon at a person. He cried bitterly at the examination and protested that he did not intend to hurt the girl.  
—The "New Woman" Not New.  
According to "Tattler" in Louisville Times, the so-called new woman is in fact so old that she is prehistoric. Tattler says:  
Since Col. Bennett H. Young has become a benighted once more, he has neglected watering his mount-hill barns, and some of his rivals are raising fresh green crops of these century plants. It will be remembered with awe that some time since Col. Young and a party
